AUSBILDUNG

Universidad Autónoma de Nuevo León (UANL)
Ingeniería en Tecnologías de Software
2015 – 2020

SAÚL PUENTES

Senior Full Stack Developer

BERUFSERFAHRUNG

Software Developer

Apr 2025 – Present

- Built custom Shopify themes and WordPress sites driving measurable e-commerce growth and lead capture for corporate clients.
- Rebuilt the complete UI for a test automation platform (muuktest.com), improving usability and brand consistency.
- Delivered fully self-manageable websites enabling business owners to update content independently, reducing maintenance costs.
- Currently developing a nationwide social dance events platform with multilingual support using Payload CMS and Next.js.

Orium

Full Stack Developer

Oct 2025 – Feb 2026

- Implemented secure digital payment processing with Stripe for Grupo Xcaret, Mexico's leading tourism company, enabling PCI-compliant checkout flows at scale.
- Designed and prototyped high-fidelity UI interfaces to streamline the booking and purchase experience.

Gluo

Full Stack Developer

Jul 2024 – Apr 2025

- Built Galerías' (galerias.com) nationwide shopping mall platform with user auth, interactive maps, and a fully customizable CMS.
- Redesigned NordicTrack's e-commerce site with dynamic components, light/dark themes, and CMS-integrated content.
- Developed data-upload scripts automating product variant imports into CommerceTools.
- Conducted code reviews and wrote unit tests for data formatting and transformation logic.

Blue People

Full Stack Developer

Apr 2023 – Jun 2024

- Led development of a serverless SaaS logistics platform applying SOLID principles and AWS best practices.
- Built and deployed React Native mobile apps (food ordering, event scheduling) to App Store and Play Store.
- Integrated AWS services: Cognito, Lambda, API Gateway, SNS, SES, S3, DynamoDB, and CloudFormation.

Enroute

Full Stack Developer

Jan 2021 – Mar 2023

- Collaborated on redesigning VMware's global validation system, improving query performance for large data center datasets.
- Refactored a high-volume automated email system tied to complex business rules.
- Built institutional React Native apps for US-based clients and led front-end dashboard improvements.

Helicon

Full Stack Developer

May 2019 – Nov 2020

- Automated a full packaging production line for a leading nationwide pharmacy chain, reducing manual errors and enabling real-time monitoring.
- Built production line interfaces using barcode scanners and a custom state machine to track process flow.

- Developed admin dashboards, video logging tools, and a ticketing system for shipment tracking.

Grupo 4S

Web Master

Feb 2018 – Apr 2019 · San Pedro Garza García, México

- Built and maintained WordPress websites, optimizing load times and improving Google PageSpeed and SEO rankings.
- Developed responsive custom WordPress themes from scratch with design and marketing teams.
- Implemented lead-tracking scripts and integrated automated workflows using Zapier.
