PROFILE

Full Stack Developer with 8 years of experience building scalable web and mobile applications across e-commerce, logistics, and SaaS. Expert in JavaScript/TypeScript ecosystems — React, Next.js, Node.js, and AWS — with a track record of translating complex business requirements into production-ready solutions. Experienced in leading feature development, designing serverless architectures, and integrating headless CMS platforms for enterprise clients.

TECHNICAL SKILLS

Frontend React · Next.js · Tailwind CSS · React Native

Backend & CMS Node.js · NestJS · Payload CMS · Shopify (Liquid/APIs) · WordPress

Tools & Infra AWS (Lambda, Cognito, S3, DynamoDB) · Docker · REST / GraphQL · MongoDB · Git · CI/CD

EXPERIENCE

Software Developer

Apr 2025 – Present

- Built custom Shopify themes and WordPress sites driving measurable e-commerce growth and lead capture for corporate clients.
- Rebuilt the complete UI for a test automation platform (muuktest.com), improving usability and brand consistency.
- Delivered fully self-manageable websites enabling business owners to update content independently, reducing maintenance costs.
- Currently developing a nationwide social dance events platform with multilingual support using Payload CMS and Next.js.

Orium

Oct 2025 – Feb 2026

Full Stack Developer

- Implemented secure digital payment processing with Stripe for Grupo Xcaret, Mexico's leading tourism company, enabling PCI-compliant checkout flows at scale.
- Designed and prototyped high-fidelity UI interfaces to streamline the booking and purchase experience.

Glueo

Jul 2024 – Apr 2025

Full Stack Developer

- Built Galerías' (galerias.com) nationwide shopping mall platform with user auth, interactive maps, and a fully customizable CMS.
- Redesigned NordicTrack's e-commerce site with dynamic components, light/dark themes, and CMS-integrated content.
- Developed data-upload scripts automating product variant imports into CommerceTools.
- Conducted code reviews and wrote unit tests for data formatting and transformation logic.

Blue People

Apr 2023 – Jun 2024

Full Stack Developer

- Led development of a serverless SaaS logistics platform applying SOLID principles and AWS best practices.
- Built and deployed React Native mobile apps (food ordering, event scheduling) to App Store and Play Store.
- Integrated AWS services: Cognito, Lambda, API Gateway, SNS, SES, S3, DynamoDB, and CloudFormation.

Enroute

Jan 2021 – Mar 2023

Full Stack Developer

- Collaborated on redesigning VMware's global validation system, improving query performance for large data center datasets.
- Refactored a high-volume automated email system tied to complex business rules.
- Built institutional React Native apps for US-based clients and led front-end dashboard improvements.

Helicon

May 2019 – Nov 2020

Full Stack Developer

- Automated a full packaging production line for a leading nationwide pharmacy chain, reducing manual errors and enabling real-time monitoring.

Grupo 4S

Feb 2018 – Apr 2019

Web Master

- Built and maintained WordPress websites, optimizing load times and improving Google PageSpeed and SEO rankings.

EDUCATION

Universidad Autónoma de Nuevo León (UANL)
